

Data Verification

Data Verification

What is meant by Data Verification?

- Data Verification is the process by which information submitted to SIRS is reviewed to insure its accuracy, revised, and re-submitted as necessary and re-verified.
- Accuracy of data is increasingly important given the high stakes nature of the accountability and teacher/principal evaluation systems.

Data Verification

Data Verification is a
PROCESS,
not an event!

Data Verification

How do I verify data?

Data verification is done through:

- Level 2 Reports – L2RPT
- ReportNet
- PD System (Special Education)

Data Verification - ReportNet

The screenshot displays the ReportNet web application interface. On the left is a dark blue sidebar with navigation options: Home, Search, My content, Team content (highlighted with a green bar and a small green circle), and Recent. The main content area has a blue header bar with the text 'Team content > District' and icons for adding, filtering, and sorting. Below the header is a list of folders, each with a folder icon, a name, and a timestamp. The 'Special Education' folder, with a timestamp of '2/28/2020 10:33 AM', is circled in blue. To the right of the folder list is a light gray sidebar containing the text 'gional' and 'ized analytics'. A mouse cursor is visible at the bottom right of the interface.

The 2020-21 SIRS refresh has finished and the issue of 5 year olds being wrongfully excluded is now fixed.

The refresh schedule for VR1-9 is available at:
http://www.p12.nysed.gov/sedcar/forms/vr/2021/refresh/refresh_sch_vr1-9.htm

The due dates for each report for the 2020-21 school year is available at:
<http://www.p12.nysed.gov/sedcar/forms/instructions/duedates2021.html>

You can access prior years verification reports by using the drop down menu on the top left navigation bar.

Certification buttons are now disabled whenever a refresh is running to prevent inadvertent certifications of data while tables are being refreshed. Only the certifications that are required will appear on the dashboard.
