The Batch ID displays the batch name.

Test ID displays the 5 digit test ID being scanned.

Test Name displays the name of the test being scanned.

Test Received is the number of tests initially received.

Status displays the current status of the batch as it makes its way through OSC's Workflow. The following status values may be shown:

- Received : The batch has been received at OSC
- Processing : The images are being analyzed by the OSC software
- Processed : Analyzing is complete
- Cleaned : The first pass of manual data capture is complete
- Verified : The second pass of manual data capture is complete
- Finalized : A data file has been readied and any error notifications have been sent
- Sent To RIC : Data file(s) queued for ftp transmission
- Deleted : The batch has been deleted. Contact Student Data Services.

In Time lists the time the batch was received at OSC.

Elapsed Time lists the time it took to send the data to the RIC or the time that has elapsed since the batch was received.

The **Error Log** field will present a link to a document that contains a description of the errors associated with the batch. The link will be available only when errors exist in the batch and the link will display the number of errors.
