# **New Requirements for the Submission and Certification of Special Ed. Events Data**

The New York State Education Department has developed new requirements for the submission and certification of Special Education Events Data for SPP Indicators 11 (Child Find) and 12 (Early Childhood Transition)

**Effective with the 2023-2024 school year**, all public school districts are required to submit special education events data for all preschool and school-age students referred between July 1 and June 30 for evaluation of eligibility for special education services. Submission due dates correspond to four distinct time periods.

There are different data submission due dates and verification requirements depending upon to which category your district belongs

## **Districts with noncompliance**

- Districts that have identified noncompliance from 2022-2023 or 2021-2022 school years are required to have Special Education Events Data submitted for at least the first and last submission for NYSED to verify correction of noncompliance
- noncompliance also includes districts that were required to, but did not previously submit and/or certify these data. Your district will be notified by the Department directly if it is in the identified noncompliance category.

# **New Requirements for the Submission and Certification of Special Ed. Events Data**

NYSED is working with the Special Education Management System vendors (ClearTrack and Frontline) to implement changes to ensure each district will have the capacity to submit data according to the four periods.

This initial implementation year will allow districts to adjust to the yearly submission of data at prescribed dates. **All districts will be required to submit Special Education Events Data four times a year and use the PD system to verify these data in the 2024-2025 school year.**
