

Using MSIX to Serve Migrant Students

Legal References

Public Law 114-95 (Every Student Succeeds Act)

Section 1304 (b)(3) and Section 1308(b) – Timely transfer of pertinent school records and linkage of States migrant student record systems

Code of Federal Regulations

34 CFR §200.85 – MSIX regulations

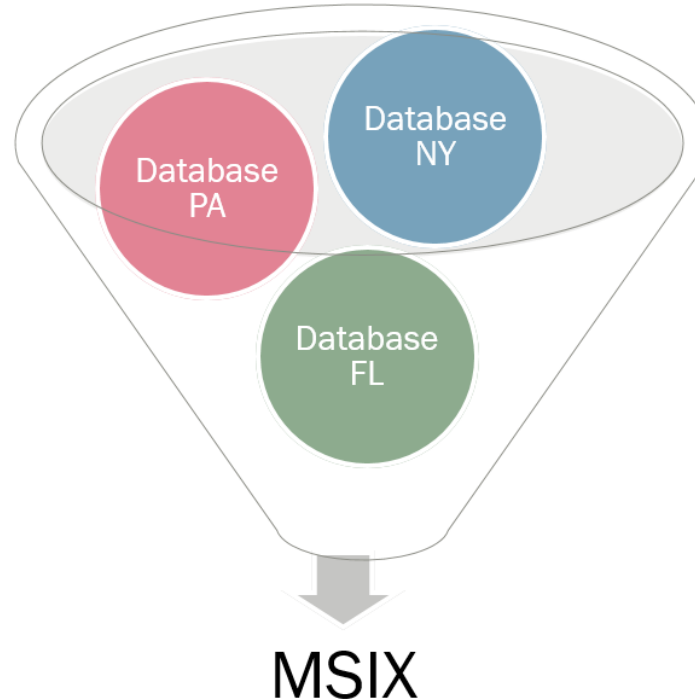

Guidance

Chapter VI- Coordination

What is MSIX?

MSIX is a **web-based** portal that links States' migrant student record databases to **facilitate the national exchange** of migrant students' **Certificate of Eligibility (COE)** demographic, educational, and health information among States.

MSIX is the National Student Information Management System for Agricultural Migrant Students.

Overview of MSIX

- ❑ MSIX is the national data system that links data from all States
- ❑ The purpose of MSIX is to support **timely enrollment, placement, credit accrual, and MEP participation**
- ❑ MSIX regulations **REQUIRE** all States to use MSIX
- ❑ User access is “role based” but all users can search/retrieve data
- ❑ **NY State Migrant Education wants to give MSIX access to districts!**

How MSIX can help you?

1. Search Students to determine if they have been in the Migrant Education Program
2. View a new student's **course history** to determine grade level placement
3. View student's English Language acquisition status (**ENL**) or Individualized Education Plan (**IEP**) status
4. View student's **credit accrual**

Requesting an Account

- Obtaining an MSIX User Account:
 - Complete the MSIX cybersecurity training
 - Complete MSIX User Application
 - Accept MSIX Rules of Behavior
- You can download all the resources here:
<https://www.nysmigrant.org/resources/downloads> or for additional information Email
Kerri O’Gorman, Long Island – Metro Migrant Education Program Data Specialist
kogorman@esboces.org or
Odilia Coffta, NYS-MEP Data Training Coordinator
odiliacoffta@gmail.com

Protecting Migrant Student Data

- ❑ MSIX contains **real, sensitive student data** that should not be shared with those who do not need it. MSIX contains the information needed to commit identity theft, so protecting Personally Identifiable Information (PII) is a critical aspect of MSIX. PII is generally considered information that, alone or in combination, is linked or linkable to a specific student that would allow a person, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty.
- ❑ **If there is a PII incident contact the MSIX Help Desk immediately.**

Please be aware of sensitive data and PII when sending screenshots within your department or troubleshooting with the Help Desk.

Districts Currently Served by the Long Island – Metro Migrant Education Program

Suffolk County

Nassau County

New York City

Pre-referral Questionnaire (English / Spanish)

1. Have you **moved in the last 3 years** = **Yes**

An aerial photograph of a beach and turquoise water. The beach is sandy and has some people on it. The water is a vibrant turquoise color. There are some rocks and a rocky shore on the right side. A dark, semi-transparent rectangular overlay covers the middle of the image, containing the text "Thank You!" in a white, stylized font. Below this, another dark, semi-transparent rectangular overlay contains three email addresses in a green, underlined font.

Thank You!
