Graduation Exam Requirements Keeping Up with the Cohorts

Determining the type of data and when to upload it can be very daunting. This workshop will help streamline the verification process for guidance counselors and principals, allowing for an early review of the required assessments to aid in identifying students at risk of not graduating due to a missing assessment.

During this workshop, we will review and discuss:

- The importance of loading data early, including guidance counselor assignments, to ensure a smooth process
- Correlation between graduation degree and ESSA status determinations
- Data that needs to be loaded, including LOTE Checkpoint B
- The SIRS 340 Graduation Requirements Summary Report and SIRS 341 Graduation Requirements Detail Report
- The importance of looking at Cohorts

DATE: Monday, April 25, 2022
TIME: 11:00 -11:45 AM
COST: Complimentary
AUDIENCE: Guidance Counselors and District Level School Administrators
LOCATION: Virtual Workshop – Details will be provided by email
REGISTER: <http://webreg.esboces.org>

Kimberly Hart has been a Staff Developer/Shared Data Expert with Eastern Suffolk BOCES since 2018. In this role, Kim works one-on-one with district leadership in various educational settings and provides regional training. She analyzes data and provides meaningful data conversations with District Administrators, as well as, other district staff. She also works with the Suffolk Title III Consortium districts, providing English Language Learner (ELL) data to the ENL teachers and administrators. Kim is a NYS Certified Teacher (Pre-K, Grade 1-6). Prior to her employment with ESBoces, Kim had extensive years in management and supervision of employees and support staff for a non-profit early childhood/family service organization. She has also used her strong analytical writing and research skills for grant writing. Currently, Kim is also an Adult Literacy Teacher for Eastern Suffolk BOCES.

Staff Assignment

- ▶ This data is used for Personnel Master File (PMF BEDS) and Annual Professional Performance Review (APPR) purposes
- ▶ All non-teaching professional staff, including building principals, must be reported. (SIRS pgs.176 – 181)
- ▶ Principal PMF assignment codes (1102 – 1110) will be used to link the principal to the students enrolled in the location that they supervise for APPR purposes

- This report shows all teachers whose certifications do not meet the requirements for the Course Code(s) associated with them in your Student Information System.
- Please note that in this example, Corrective Reading is most likely AIS which has its own code. You may find that this is a very common error.
- Another common error is that the Special Ed Indicator is set to No when a teacher is teaching a Special Ed course.

AIS codes

You may find many errors for teachers providing Academic Intervention Services.

Please refer to the graphic on the right. This information is pulled from the SIRS manual, page 101.

What course codes should districts use to report Academic Intervention Services (AIS) for Grades K-6?

- Districts should use the following course code(s) based on the content area:
51996- Eng Lang & Lit- Supplemental
52996- Mathematics- Supplemental
53996- Life & Phys Sci- Supplemental
54996- Social Sci & Hist- Supplemental

What course codes should districts use to report Academic Intervention Services (AIS) for Grades 7-12?

- Districts should use the following course code(s) based on the content area:
01996- Eng Lang & Lit- Supplemental
02996- Mathematics- Supplemental
03996- Life & Phys Sci- Supplemental
04996- Social Sci & Hist- Supplemental

The first graphic, SIRS 328 report, shows this teacher is out of certification for Reading (grade5). The second graphic, SIRS 329 report, shows the teacher's certifications.

Use the [Certification / Course Crosswalk](#) and compare the certification codes to the out of certification course code.

In this example, the teacher is certified in certification area codes 0126, 3013, 3014, and 9014.

The teacher is out of certification for course code 51045. Filter the course code, column A, to course code 51045. In this example it will not appear, therefore, this is not a valid code for any of this teacher's certifications.

Next you must determine if the teacher is actually teaching out of certification or if you are using an incorrect code for the course.

- What is Reading (grade5)? Define the course.
 - Is this a Special Education course? AIS?
- Look at the courses that are in certification for this teacher. Is there another code that can be used?

Last Chance to fix UPK Data – April 28th

Many districts received an email similar to the following. If NYSED has identified missing or incorrect data in your UPK counts, please reach out to

DWTShelp@esboces.org

Good afternoon,

In reviewing our latest verification reports provided to the Office of Early Learning on March 28, 2022, it has come to our attention that the district currently has students uncoded into its Student Learning Management System (SLMS).

Currently, for the XXX UFSD, our office has records indicating that there are X students in the district's 4-year-old program without Program Codes. The district should work with their local RIC to fix this coding issue. Should the RIC be unable to assist, the district should then reach out to the Office of Information and Reporting Services (IRS) at the New York State Education Department.

Please ensure that all students are coded by the end of the day on Tuesday, May 31, 2022. After that date, the Office of Early Learning will be using the final numbers of coded students to determine a district's maximum amount payable for the 2021-2022 school year. All amendments should be submitted to the Office of Early Learning no later than July 8, 2022.

Sincerely,

How to troubleshoot a missing course instructor

How Regents Preprint Data is pulled From Level 0

Regents preprint data is pulled from the combination of
Course Instructor Assignment and Class Entry/Exit
Data loaded to Level 0
(State course code determines answer sheet)

“Class Exit Date” in Class Entry/Exit
Must be BLANK
A Class Exit Date indicates that the student has left the class
(No answer sheet will be printed for students with a class exit date)

The Teacher with a “Primary Instructor Indicator” in
Course Instructor Assignment of “Y”
Will have their name printed on the answer sheet

If more than one teacher has a “Primary Instructor Indicator”
Of “Y” the teacher name printed on the answer sheet
Is determined by TEACH ID
(The teacher with the lower numeric number is used)

How to Report Students Using Cooperative Virtual Instruction

.

What constitutes Co-Op Virtual Learning?

- **NYSED regulations require the granting district to ensure**
 - Instruction in online/blended learning courses that lead to graduation credit be taught by a teacher certified in the subject area
 - Teachers may be from the district, a BOCES, or from another school district in a shared service agreement
 - A teacher providing instruction or directing/supervising instruction would be the teacher of record. Districts, BOCES, and charter schools responsible for teachers serving in this role should report them by linking them to the students they are assigned to instruct or supervise (SIRS Pg. 112)
 - Virtual courses must provide regular and substantive interaction between students taking the course and the certified teacher

What needs to be reported?

From SIRS Pg. 112 - The most common reporting methodology would be where receiving districts report the course data and report the outside teacher providing the instruction as an Itinerant teacher in Staff Snapshot

- For districts that are participating in a virtual consortium, you will be responsible for loading:
 - Staff Snapshot
 - Course Instructor Assignment
 - Student Course Entry/Exit
 - Final Grade Detail
 - Attendance

<u>District A or BOCES</u> Employs Staff Teacher <u>does</u> teach courses in this location			<u>District B</u> Does not Employ Staff District A or BOCES teacher <u>does</u> teach courses in District B as well

Staff Tenure	X		Staff Tenure		
Staff Evaluation	X		Staff Evaluation		
Staff Attendance	X		Staff Attendance		
Course Instructor Assignment	X		Course Instructor Assignment	X	
Student Class Entry Exit	X		Student Class Entry Exit	X	

Staff Snapshot & Itinerant Flag for Itinerant Teachers

- The Itinerant flag allows an LEA to report a staff person responsible for students in this LEA but employed by another LEA (district, BOCES, or charter school). (SIRS Pg. 107)
- The reporting elements for itinerant teachers are reduced in Staff Snapshot
 - District Code
 - Location Code
 - Status/Active Indicator
 - Itinerant Status
 - Staff ID
 - Birth Date
 - Staff First and Last Name
 - Snapshot Date
 - Position Title
 - email

For a Level 0 ready file with all of the itinerant teacher information you need, please email Bill Ritchie britchie@esboces.org

Enrollment for Virtual Students

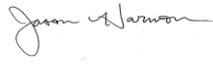

- Enroll student as a 0011 Entry Code
- Valid Program Location Code
 - Student's location must be a valid in district location code
 - Location must have a valid Day Calendar
- Student Course Entry Exit (SCEE) record for each virtual course
- Report Student/Class/Grade/Detail for each secondary virtual course
- Attendance should be reported for each virtual course
 - Districts using the Western Suffolk BOCES program should have access to their students attendance data through SchoolTool

Subject: 2021-22 Grades 4-8 and 9-12 Growth Model Results

Date: March 2022

The purpose of this memo is to provide updates on the 2021-22 growth results.

Grades 4-8 Teacher-Student Linkage

In an effort to reduce reporting requirements, the New York State Education Department (NYSED or “the Department”) sunset the Staff Student Course (SSC) collection in 2019-20. In place of the SSC collection, the growth vendor developed a methodology that uses three existing collections to link students to their teachers (not their principals) for the Grades 4-8 State-provided growth teacher model. These collections are:

- **Course Instructor Assignment (CIA):** The CIA file links teachers to courses. Teacher entry and exit dates are used to capture the proportion of time a primary instructor¹ taught a course that is tied to a Grades 4-8 ELA or Math State assessment or an Algebra I Regents examination.
- **Student Course Entry Exit (SCEE):** The SCEE file links students to courses. Student entry and exit dates per course are used to ascertain when the student was in enrolled in a course.
- **Student Attendance:** The Student Attendance file provides the number of days that a student was in attendance from the beginning of the school year to the first day of the Grades 3-8 ELA and Math assessment dates. The number of days in attendance is used to determine the student attendance weight.

For more information, see the “[How Are Students Linked and Attributed](#)” document that is available on the State Growth Measures Toolkits site.

Grade 8 Algebra Growth Scores

In response to feedback from teachers, principals, superintendents, and other stakeholders, beginning with 2021-22 school year results, the Department will include in the computation of Mean Growth Percentiles (MGPs) the Student Growth Percentiles (SGPs) calculated for grade 8 students who take an Algebra I Regents examination and do

¹ The definition of primary instructor includes those who teach English as a New Language (ENL) or Students with Disabilities (SWD). All ENL, SWD and Bilingual instructors should be reported in CIA with the appropriate indicators.

not take the New York State Grade 8 Mathematics Assessment. These SGPs will be incorporated into teacher, principal, and school State-provided growth results that are provided for informational purposes and into school and district Growth Indices for use in school and district accountability.

Grades 9-12 Growth Models

The following enhancements were made to improve growth scores:

- The MGP and Growth in Regents Examinations (GRE) models will use grade 6 ELA and math assessment results as pretests. This modification allows growth scores to be generated for students missing both grades 7 and 8 pretests.
- The GRE model will account for previously passed Regents alternatives in ELA, math, science, and social studies. This modification more accurately represents how students make progress toward meeting the graduation requirements. Due to when results are available for State-approved Regents alternatives, growth results do not account for exams taken in the current year.
- The GRE model will account for Regents exemptions as meeting graduation requirements. This modification aligns to the Department's graduation requirement policy.

State-provided Growth Results

Pursuant to Chapter 59 of the Laws of 2019, which amended the Student Performance Category requirements of Education Law §3012-d, State-provided growth scores are no longer required to be used by New York State teachers of mathematics and English language arts (ELA) in grades 4–8 and their principals as well as principals of students enrolled in Grades 9-12 for evaluation purposes. While State-provided growth results are not required to be used for Annual Professional Performance Reviews, the Department is committed to providing these results to districts, charter schools, and BOCES. State-provided growth results will also be used as part of New York State's Every Student Succeeds Act (ESSA) plan to ensure equitable access to effective teachers.

The Department encourages districts to regularly report your data and utilize the [Level 2 Verification Reports](#). For questions regarding the reporting of data to SIRS, please contact DataSupport@nysed.gov. For questions about State-provided growth results, please contact EducatorEval@nysed.gov. For questions regarding the use of student growth results to make accountability determinations, please contact AccountInfo@nysed.gov.

How are Students Linked and Attributed to Teachers, Principals, and Schools in the State-Provided Growth Models?

Growth models measure the change in achievement on an assessment between two points in time for an individual student compared to similar students. Individual students who are linked to their teachers, principals, and schools and who meet enrollment duration requirements are attributed to their educators. The process for linking and attributing students differs for teachers, principals, and schools and between the grades 4-8 and 9-12 growth models.

New York State teachers of mathematics and English language arts (ELA) in grades 4–8 and principals receive State-provided growth scores based on 2018-19 State tests **for advisory purposes only** pursuant to Chapter 59 of the Laws of 2019, which amended the Student Performance Category requirements of Education Law §3012-d.

Teachers

The Staff Student Course data (also known as the Teacher-Student Data Linkage or TSDL) are used to identify the student-teacher relationship for courses that end in a Grades 4-8 English Language Arts (ELA) or mathematics assessment or a math Regents.¹ Three data elements from the TSDL are used to determine whether students meet the attribution requirements to be included in their teachers' results and how students' results are included in their teachers' results:

1. **Course Duration** – Total number of instructional minutes for the course (i.e., the total planned class time)
2. **Enrollment Duration** – Total time a student is enrolled in the course
3. **Attendance Duration** – Total time a student attends the course

First, the course duration and enrollment duration are used to determine if students are enrolled in their courses for at least 60% of the course ($\frac{\text{Enrollment Duration}}{\text{Course Duration}} \geq 0.6$). For students who meet the 60% enrollment threshold, their student growth percentiles (SGPs) are weighted for their teacher based on the student's attendance in the course ($\text{weight} = \frac{\text{Enrollment Duration}}{\text{Course Duration}} \times \frac{\text{Attendance Duration}}{\text{Enrollment Duration}}$).

Principals and Schools

Students are linked to their principals and schools based on the grade(s) for which the principal and school are responsible. Elementary and middle schools that serve any combination of grades 4-8 and their principals can be responsible for a single grade and still receive a State-provided growth score.

However, principals and schools with students in grades 9-12 must be responsible for all of grades 9 through 12 to receive State-provided growth results.

For a student to be attributed to a principal or school, the student must meet the continuous enrollment requirements: enrolled in the same school on Basic Education Data System (BEDS) day (i.e., the first Wednesday in October) and the first day of the State assessment administration appropriate for their grade (or age, if ungraded).

¹ The ESSA double-testing waiver allows students in Grades 7-8 to take math (not ELA) Regents exams instead of the grade-level state assessments for institutional accountability purposes. The state-provided growth model uses math Regents Staff Student Course records to identify teachers whose Grade 6-8 students may also take the grade-level state math assessment.

Table 1 provides a summary of the linkage and attribution requirements for teachers, principals, and schools in the State-provided growth models. The last two rows detail how students who meet the attribution requirements and who have a student growth percentile (SGP) score are included in their educator's State-provided growth results, so long as their educator has at least 16 SGPs.²

Table 1. Teacher, Principal, and School Linkage and Attribution Requirements

	Grades 4-8 MGP			Grades 9-12 MGP and GRE	
	Teacher	Principal	School	Principal	School
Linked	Student is enrolled in a teacher's course as identified by the TSDL	Principal is responsible for the same grade level as the assessment taken by a student		Principal is responsible for all of grades 9-12	School is responsible for all of grades 9-12
Attributed	Student enrolled for 60% or more of the course duration	Student enrolled in the school on BEDS day and the first day of the State assessment administration	Student enrolled in the school on BEDS day and the first day of the State assessment administration	Student enrolled in the school on BEDS day and the first day of the State assessment administration	Student enrolled in the school on BEDS day and the first day of the State assessment administration
Weight	$\frac{\text{Enrollment Duration}}{\text{Course Duration}} \times \frac{\text{Attendance Duration}}{\text{Enrollment Duration}}$	N/A	N/A	N/A	N/A
MGP ¹	$\frac{\sum SGP \times \text{weight}}{\sum \text{weight}}$	$\frac{\sum SGP}{n \text{ of students}}$	$\frac{\sum SGP}{n \text{ of students}}$	$\frac{\sum SGP}{n \text{ of students}}$	$\frac{\sum SGP}{n \text{ of students}}$

Note: Student SGPs will be included in their teacher, principal, or school's results if the student has the necessary information to generate an SGP and the educator has at least 16 SGPs.

¹ The symbol "Σ" indicates the sum of the values.

Details on how the attribution and linkage are used in the computation of the State-provided growth model can be found in the technical report, available on the [NYSED growth measures toolkits page](#).

Good Morning,

The attached update to Student Growth Percentile (SGP) and Mean Growth Percentile (MGP) was sent to district Superintendents this week.

Of note in the memo:

How SIRS extracts are used in growth calculation

- Course Instructor Assignment (CIA): The CIA file links teachers to courses. Teacher entry and exit dates are used to capture the proportion of time a primary instructor 1 taught a course
 - In the case of a co-taught course where the district gives equal weight to both teachers, the teacher with the lower TEACHID becomes instructor 1
- Student Course Entry Exit (SCEE): The SCEE file links students to courses. Student entry and exit dates per course are used to ascertain when the student was in enrolled in a course
- Student Attendance: The Student Attendance file provides the number of days that a student was in attendance from the beginning of the school year to the first day of the Grades 3-8 ELA and Math assessment dates
 - The number of days in attendance is used to determine the student attendance weight
- For more information on how scores are calculated please see the most recent growth FAQ (attached)

Beginning with 2021-22 school year results, the NYSED will include grade 8 students who take an Algebra I Regents examination in the computation of Mean Growth Percentiles (MGPs) the Student Growth Percentiles (SGPs)

- Algebra I SGPs will be used in State-provided growth scores for teachers and principals

- Algebra I scores will be used in growth indices will be used for school and district accountability measures

🏠 State-provided growth scores are no longer required to be used for teachers and principals for evaluation purposes

Good Morning,
The New York State Education Department (NYSED) is accepting stakeholder input on possible modifications to New York State's **accountability** re-start plan based on results from the 2021-22 school year.

To seek input from teachers, principals, superintendents, parents, and other stakeholders, NYSED has developed "A Survey for Possible **Accountability** System Modifications for the 2021-22 School Year." The online survey submission form has options to be translated in languages other than English. NYSED is accepting responses to the survey **through 5:00 PM EST on April 29th.**

To help inform survey feedback, NYSED has also prepared a webinar, "[Every Student Succeeds Act \(ESSA\) **Accountability** Restart Webinar for the 2021-22 School Year.](#)" The webinar provides an overview of the recent **accountability** waiver denial, flexibilities and constraints given by the United States Department of Education (USDE) for restarting the **accountability** system, and a description of the state of the **accountability** indicators in the 2021-22 school year.

The School and District **Accountability** resources can be found here: <http://www.nysed.gov/accountability/school-and-district-accountability>

NYSED appreciates your valuable input. Any questions related to the survey and/or webinar can be sent to accountinfo@nysed.gov

2021-22 Accountability Waiver

On December 22, 2021, NYSED submitted a waiver request to USDE to seek flexibility from federal accountability requirements using data from the 2021-22 school year.

The waiver requested flexibility in:

- provisions of ESSA pertaining to identification of schools and districts for improvement using data from the 2021-22 school year.
- the usage of Title I School Improvement Funds to support Good Standing Schools at risk of being identified as Targeted Support and Improvement (TSI) prior to the pandemic.

2021-22 USDE Waiver Request Consultation

In preparation for submitting the 2021-22 Waiver Request, NYSED:

- Reviewed testing and historic data from before and during the pandemic.
- Modeled the impact on accountability determinations.
- Consulted with national experts in assessment and accountability.
- Engaged with Stakeholders throughout New York such as:
 - Parents
 - School Administrators and Teachers
 - Community Based Organizations
- Over 80% of responses supported NYSED's waiver request.

2021-22 Waiver Denied by USDE

On December 30, 2021, USDE denied New York's accountability waiver request.

The Waiver was denied for:

- Not meeting the statutory requirements for a waiver outlined in section 8401(b)(1) of the ESEA.
- Not sufficiently demonstrating how the request will advance student academic achievement.

See NYSED memo here:

<http://www.nysed.gov/common/nysed/files/usde-response-to-accountability-waiver.pdf>

Flexibilities Offered by USDE

According to USDE Guidelines:

- An SEA may make one-year or longer-term changes to its approved ESEA consolidated State plan, consistent with ESEA requirements.
- An SEA may consider changes to long-term goals and measurements of interim progress for Academic Achievement, Graduation Rates, and Progress in Achieving English Language Proficiency (ELP) due to the impact of COVID-19 and resulting disruptions on school performance.
- An SEA has discretion to modify its methodology for its system of annual meaningful differentiation, which must include all schools in the State and be based on all indicators (or may replace the Other Academic Indicator).

Constraints Required by USDE

According to USDE Guidelines:

- Each SEA is required to annually measure the achievement of not less than 95 percent of all students and students in each subgroup on its annual statewide assessments in reading/language arts and mathematics under ESEA section 1111(c)(4)(E).
- An SEA may not use indicators that are not statewide.
- SEAs must run its accountability system for purposes of identifying at least the current lowest-performing five percent of Title I schools in fall 2022 based on data from the 2021-2022 school year and may not carry over a previous year's list of identified schools.
- SEAs may exclude students from the high school participation and performance calculations for the 2019-2020 school year, but not in subsequent years for which an assessment waiver was not provided.

<ul style="list-style-type: none">• Low participation rate in 2020-21 for NYSESLAT data could impact 2nd and 3rd year ELLs.• Accountability decisions could be made using 2021-22 school year data.	<ul style="list-style-type: none">• Lower participation rates and missing data will affect Elementary-Middle Level (EM) Weighted Achievement Index and High School (HS) Composite Performance Index.• Long-Term Goals and MIPs based on pre-pandemic baselines.• NYSED may consider dropping Academic Progress indicator for one year.•	<ul style="list-style-type: none">• Pandemic years showed higher rate of absenteeism.• Long-Term Goals and MIPs based on pre-pandemic baselines.

Putting Together the Accountability System in 2021-22

- USDE requires Composite Performance to be included in the accountability system for 2021-22.
- Graduation Rate, ELP, CCCR and Chronic Absenteeism data are usable – but may need some modifications.
- Growth and Academic Progress have missing data.
- NYSED acknowledges the constraints and seeks stakeholder inputs in putting together the system for 2021-22.

Thank You!
