<i>**Any grade 7-8 ELA/math teacher who uses a Regents exam(s) and also receives an SPG must use the SPG. If less than 50% of students on their roster are covered by the SPG, they must also have a teacher-specific SLO based on the Regents exam(s) used in the course. The two measures must then be combined, weighted proportionately based on the number of students in each measure.</i>

* Please note: the requirement to have back-up SLOs in place for grades 4-8 ELA/math teachers is suspended through the transition period.

An original required student performance subcomponent should not be submitted for an educator who should have received an SPG, but did not, and did not have a back-up SLO based on the NYS 4-8 ELA/math assessments in place.

HOWEVER, if a back-up SLO was in place that was based on the grade-specific NYS 4-8 ELA/math assessments, that back-up SLO can be used in lieu of the missing SPG and the previous chart should be referenced for a list of appropriate codes.
